Wellesley, Massachusetts  
July 3, 1970

Dr. Matthew S. Meselson  
Professor of Biology  
Harvard University  
Cambridge, Massachusetts 02138

Dear Professor Meselson:

On behalf of the Naval Reserve Officers School, I want to thank you and extend our appreciation for joining with many of our officers several weeks ago. You were very thoughtful to give us your time and expert insight into the present issue of how to treat so called "riot-control" weapons and the relationship with the question of CBW control.

Your comments were certainly most helpful and again were clearly appreciated. I am sorry to have missed the meeting.

Yours cordially,

*William Murphy*  
William Murphy  
Captain, USNR
