Dear Dr. Meselson:

I now enclose proofs of the illustrations that will accompany your article. I also enclose a typescript of the captions that will accompany the illustrations. The captions are keyed to the illustrations by number. May I call your attention to the fact that the first caption is No. 4; Nos. 1, 2 and 3 are the headline, subheading and by-line.

If there is anything wrong here, we should naturally like to know about it. I am afraid, however, that the time is getting rather short. Accordingly one of us will give you a call when we think you have had this material for a couple of days. If for any reason it is more convenient for you to call us, I hope you will not hesitate to do so collect. There is no need to return any of these things, unless you have something specific to indicate on one or another of them.

Cordially,

Dennis Flanagan  
Editor
