Dear Matt:

I note in Science that you had some difficulties getting data from the DOD, but that you did obtain specimens, etc. I am going to Europe soon for a meeting during which CBW in Vietnam will be discussed. Do you have any hard data that I could have ~~or~~ any late developments from the Washington, D.C. CBW front?

Did you know that MACV made an investigation of who defoliated Cambodia, but will not make it available, even to senate members?

I would much appreciate anything you can give me about your Viet Trip.

Best regards,
