Dear Professor Meselson,

It has been for me joy to be able to meet you and to know more about your work that I had already known in Europe through some reports.

You will find here with this letter a photocopy of the letter of Mrs Neto and also the translation I have done. I hope that it will be useful. I am also writing to the friends of the MPIA in order to ask for more information.

Thank you for anything you could make to improve, even very little, this situation.

Very sincerely yours.
