

APR 30 1971

THE SALK INSTITUTE
COUNCIL FOR BIOLOGY IN HUMAN AFFAIRS

27 April 1971

Dear Matt:

Thanks for your letter and for the copy of the testimony. It has just arrived, and I shall look forward to reading it. The expense reimbursement will be sent separately very shortly.

I wrote to Dave MacEachron at the Council on Foreign Relations, about a Council meeting in NYC, and he replied that there had been one in your honor last year. My response that the Viet Nam report was still another matter seems only to have been taken into consideration.

It is we who thank you--for an elegant presentation--and I for a good after dinner conversation. I look forward to seeing you soon.

Cordially,

Harry Boardman
