Dear Dr. Meselson:

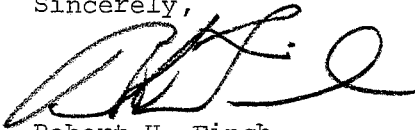

Thank you very much for your letter of May 26 along with your recent article in the Christian Science Monitor, which I appreciate having.

During this commencement season my schedule has been quite heavy and I do regret that at the moment I cannot see an opportunity for us to get together.

My gratitude, however, for your offer to be of assistance in our consideration of these matters, and I will certainly bear it in mind.

With appreciation, and kindest regards,

Sincerely,

Robert H. Finch
Counsellor to the President
