Mr. Thomas Dine
Administrative Assistant to Senator Frank Church
Room 204
Old Senate Office Building
Washington, D.C.

Dear Tom,

Thank you very much for your generous offer to help. I would be very glad indeed for anything you can do to get a number of papers on herbicides declassified. So far as I know there is nothing whatsoever in any of them that could properly be called a military secret. Quite to the contrary, I strongly believe that their declassification would serve the beneficial purpose of making important information available for the continuing discussions of U.S. policies regarding herbicides.

A list of the papers is enclosed.

Sincerely yours,

Matthew Meselson
