Prof. Matthew Meselson,
Harvard University,
Mass. U.S.A.

JUL 13 1971

Dear Professor,

I am enclosing a copy of a Press Release which was handed out at a Press Conference given in London yesterday by the London Committee for the Freedom of Angola, Mozambique and Guinea. I hope it is self-explanatory. It is, in fact, part of a dossier which will be submitted by the Republic of Zambia to the forthcoming Conference on Human Environment in Stockholm.

We are hoping to make a trip to Angola shortly to check out the allegations contained in the release. Knowing your involvement with the AASS Herbicide Assessment Commission I would be very interested to know if you are able to add anything to the allegations. It would be of tremendous help to us to have as much material as possible before we actually go out there.

I hope you do not mind me contacting you directly like this and I look forward to your reply.

With Pass

Yours sincerely,
Peter Pringle
