Dear Julian,

Just got your welcome package. Better delete reference 90. I do not believe I said that nor do I believe what I take the statement on page 12 to mean. Be assured that the data on the three sheets enclosed have been supplied by DoD to the Congress, and not on a classified basis either. Nevertheless, please do not connect my name with the references.

Thank you for putting me in touch with Pringle. I believe I can help him.

Cheers.
