

SWEDISH DELEGATION  
TO THE  
DISARMAMENT CONFERENCE

Geneva, July 21, 1971

Professor Matthew Meselson  
Biological Laboratories  
Harvard University  
CAMBRIDGE, Mass. 02138

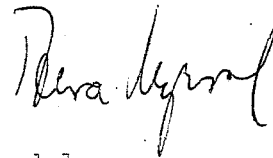

My dear Professor Meselson,

Many thanks for the copy of Fulbright's intervention on the Geneva Protocol issue.

We are continuing against very tough resistance to get a prohibition of C-weapons to move forward. I am enclosing copies of our latest interventions. And let me say that we are following with admiration your expert campaigning for the good cause.

Hoping to see you in New York or Cambridge some time in the fall,

Yours sincerely,

Alva Myrdal
