Dear Dr. Upholt:

At the request of Mr. David D. Dominick in a letter of July 19th I am sending you a summary of my views regarding the toxicological status of 2, 4, 5-T. Actually I had prepared the enclosed for Mr. Ruckelshaus a week before receiving Mr. Dominick's letter and, therefore, I am simply enclosing a copy of it to make sure that it reaches you in good time.

If I can be of any assistance in this matter in future, please do not hesitate to write.

Sincerely yours,

Matthew Meselson  
Professor of Biology
