Dear Professor Meselson:

Due to your keen interest in the 1925 Geneva Protocol, I am enclosing copies of articles that I have inserted in the Congressional Record, along with a letter that I have sent to President Nixon concerning the Protocol. There is also a letter that I received from the Department of the Army containing some interesting statistics on the use of tear-gas and herbicides.

I hope these items will be of interest to you. I would also be interested in any further comments or information that you may have.

Sincerely,

Howard W. Robison  
Member of Congress
