

16 August 1971

The Honorable Howard W. Robison  
Member of Congress  
Washington, D.C. 20515

Dear Congressman Robison:

Thank you very much for sending me a copy of the letter you wrote to President Nixon regarding the Geneva Protocol and copies of items you recently placed in the Congressional Record.

I know from recent conversations that the Administration is reviewing its position on the Geneva Protocol with a view to breaking the current impasse regarding Senate approval.

I enclose for your interest a recent editorial from The Christian Science Monitor, which you may very well have already seen. I am sure that you are also aware of the resolutions recently filed by Senator Brooke and Senator Humphrey ( Senate Resolutions 158 and 154 respectively ). If any relevant information reaches me, I will certainly send it on to you.

I greatly admire the position you have taken and will be honored to try to provide any assistance you may wish in the future.

Sincerely yours,

Matthew Meselson  
Professor of Biology
