Dear Matt:

Many thanks for the copy of your note to Ruckelshaus on 2, 4, 5-T. I appreciate being informed on the progress of your work in this area.

I have taken a two year leave of absence from Stanford, and am currently serving as Deputy Director of the Office of Science and Technology. The question of unwanted chemical additions to the environment will be one of our continuing concerns, and I hope that you will be willing to alert me to areas of concern so that we can help to get the Administration in a leaping phase on some of these problems.

With all best wishes,

John D. Baldeschwieler
