GEORGE W. RATHJENS  
Newton, Mass.

August 26, 1971

Honorable Edmund S. Muskie  
United States Senate  
Washington, D.C.

Dear Ed:

Recently, you commended the draft treaty between the United States and the Soviet Union which seeks to ban biological weapons, and you placed the draft treaty in the Record. It might be well for you to consider making an additional statement, after your staff has carefully examined the subject matter, indicating your favorable attitude toward the resolutions recently introduced by Senators Humphrey and Brooke with respect to riot gas and herbicides under the Protocol.

With appreciation for your consideration, I am

Your friend,

Albert Gore  
Washington Chairman
