

27 August 1971

Professor Sumner M. Kalman
Department of Pharmacology
Stanford University School of Medicine
Stanford, California 94305

Dear Dr. Kalman:

Thank you very much for your letter of 9 August. I would be delighted to see the outline of your book.

I no longer have any very good contacts at Edgewood Arsenal. However, there is a person there who is a good scientist and whom you might telephone for sound advice on how to get a substantive response out of Edgewood. He is:

Dr. Joseph Epstein
Chief
Defensive Research Department
Research Laboratory
Edgewood Arsenal, Md. 21010

His special field is organo-phosphates, but he has been at Edgewood a long time and knows the organization there.

I am going to Europe until the end of October and I shall look forward to reading the outline of your book on my return. I enclose for your interest my testimony on gas warfare presented to the Fulbright Committee this past March.

Sincerely yours,

Matthew Meselson
