

1 September 1971

Professor Freeman Dyson  
Institute for Advanced Study  
Princeton, New Jersey

Dear Freeman,

I have just read your admirable paper "Arms Control and Technological Change". I wish I could share an office again with you sometime.

For your possible interest, here are some things on another subject, where, as you point out, the Administration has made progress. Still, until the Geneva Protocol is ratified, the progress could be washed away.

Warm regards,

as ever,

MM:mm
