Dear Stewart,

You once mentioned to me a Rand paper concerning the uses to which chemicals might be put by insurgents. Last month I was in London where I had a long talk with Professor Herman Bondi, Chief Science Advisor to the Ministry of Defense. It is his belief that defense against a variety of threats from the third world will assume major importance in the future. He was very interested in the Rand paper and I told him that I would let him know how to obtain it, if possible. Can you let me know the title and how it might be requested by Bondi. If you wish to contact him directly his address is:

Professor Herman Bondi
Chief Science Advisor
Ministry of Defense
Main Building
Whitehall
London SW1

I hope all is going well with you.

With warm regards,

Matthew Meselson
