Dear Bob,

Thanks for sending me your article from the Journal of International affairs. I assume that Sam has seen your reference to his work. Otherwise, I would show it to him because he is really down in the dumps these days.

I enclose a memo on the Neopolitan (blue, orange and white) matter. It would be awfully good if you could do something to get the white and blue quietly sent home or, at least, to bring RVNAF practice into line with our own new herbicide policy.

Warm regards,

Matthew Meselson
