Dear Ambassador Myrdal,

It was a great pleasure to see you last week in Cambridge. I enclose the text of the Japanese Diet discussion of the Geneva Protocol. It seems impossible to get good xerox copies of this material, so I am sending the original pages. Please return them when you are finished. I have not seen a translation of this text and am not certain that the entire Diet debate is included.

With best good wishes,

Sincerely yours,

Matthew Meselson

MS;mm the translation reveals anything of special interest, I would be grateful to learn of it.
