Boston, Mass.

Dear Sir,

I am urgently in need of information concerning the effects of Herbicide spraying in Vietnam. If you can send me any material on this subject and on your survey of cond. itions which was sponsored by the AAAS I will be most appreciative.

The matter is most pressing as I must enlist all of the possible arguments against the use of Herbicides for deforestation in order to prevent the use of Hibex and "Agent Orange" in this part of the world. I will appreciate your assistance.

Yours truly,  
*Dvora Ben-Shaul*
