

2 December 1971

Professor J.C. Polanyi
Department of Chemistry
Lash Miller Chemical Laboratories
University of Toronto
Toronto 5, Canada

Dear John,

Here is the Humphrey speech. The specific reference to the position of the Canadian Government occurs on pages S19687-8.

I want to congratulate you on your success at persuading Macdonald to support the initiative that Canada has now taken. It is very rare that a private citizen can have such a clear and decisive influence in counseling governments. You certainly ought to feel a very deep sense of satisfaction.

With warm regards,

Sincerely yours,

Matthew Meselson
