Professor Matthew Meselson
Harvard University, The Biological Laboratories
10 Divinity Avenue
Cambridge, Massachusetts 02138

Dear Professor Meselson:

In the late fall you were kind enough to send me, at Jack Wheeler's suggestion, materials on the control of chemical and biological weapons.

I found these materials most helpful in developing my course on War and Society in Twentieth Century America. It is not easy to find appropriate undergraduate materials on the history of American efforts to mitigate the effects of war.

Many thanks for your contribution.

Sincerely,

ROGER H. NYE
COL, USA

Professor and Deputy Head
Department of History
