

Mrs. ALVA MYRDAL
Minister of State
Stockholm

p. 5. Geneva 17.IV.1972

Dear Friend,

I have read and carefully considered your suggestion re the Geneva Protocol. It is, of course, a very ingenious device. But I have no possibility to judge its effectiveness or even acceptability. In addition, as a Swede and an internationalist I could not wish anything but a ratification of the Protocol in terms

reservation as all!

With best regards,

Ever yours

Alva Reynolds
