Honolulu, HI 96822

Dear Peter,

Thank you for your letter of June 2nd. I am very sorry that no support will be forthcoming from the Ford Foundation. If the DoD contract with NAS remains the only source of funds with which you could operate, let me opt in my two cents worth on the side of your continuing your participation in the project anyway. I agree it would be preferable to have other support but your presence on the Academy Committee is greatly needed in order to protect its perspective and objectivity.

For your interest I enclose a copy of a letter from McGeorge Bundy.

With best regards,

Matthew Meselson
