Prof. M. Meselson,
The Biological Laboratories,
Harvard University.
CAMBRIDGE, Massachusetts 02138
U. S. A.

Dear Prof. M. Meselson:

I have just received your letter and valuable printed materials. These shall be a great help for us to provide our meeting. Many thanks. I showed your letter and a paper on the dioxine to members of medical scientists who shall report on the possible ill-effect of herbicide residues. Ecological side of the defoliation and the levelling is being studied by a group of ecologists.

Thanks again,

Yours sincerely,

Dr. Yosiaki Itô
