St. Francis of Xavier University  
Antigonish, Nova Scotia  
CANADA

Dear Dr. Ranger,

Thankyou very much for your manuscript on CBW, which I shall read with considerable interest. In case you have not seen it, I enclose the first installment of Senator Humphrey's two part presentatton regarding the Geneva Protocol. His resolution regarding the Protocol is on the docket of the Foreign Relations Committee to be taken up whenever the Protocol discusson itself is revived.

I remain cautiously optimistic that a way will be found for the United States to change its position regarding riot gas and herbicides, probably in the coming year.

With best wishes,

Sincerely yours,

Matthew Meselson
