Matthew Meselson
Professor of Biology
Harvard University
The Biological Laboratories
16 Divinity Avenue
Cambridge, Massachusetts 02138

Dear Professor Meselson:

Many thanks for your very fine papers. They will be of great assistance to us here in our continuing effort to provide education in the military field. I have asked Dave Johnson, who did his graduate work at Harvard, to respond on the specific budget items.

It was a great pleasure for me to meet and talk with you. I was very impressed with the knowledge you have in the chemical and biological field and particularly the way in which you are using it. Did you ever determine whether or not the liver tissue which you had was in fact the one referred to by the United States physician visiting Vietnam?

Sincerely,

Gene La Rocque
Rear Admiral USN (Ret.)
Director
