Dear Dick,

Here is a copy of the letter from the American Chemical Society asking to meet with President Ford to discuss the Geneva Protocol. As you will see, reference is made to the letter of April 15, 1971 from SENator Fulbright to President Nixon and to the American Chemical Society position in favor of unqualified ratification.

I'm not sure if the ACS letter has been released so check with me if you should want to do something with it.

Sincerely,

Matthew Meselson

MM/ej
