Ronnee Gabrow  
Roday Show  
30 Rockefeller Plaza  
New York, NY 10020

Dear Miss Gabrow,

I enclose some background materials for the use of your writer. Subject to what I realize are the harsh limitations of time, here is a list of questions that might be touched upon during the interview.

- 1 What are chemical and biological ~~weap~~ weapons?
- : What CB weapons does the United States have?
- : What CB weapons do other nations have?
- What defenses exist against CB weappns?
- What arms control treaties are there for CB weapons?
- What ~~cons~~iderations led the United States to ratify the Geneva Protocol and the Biological Weapons Convention earlier this year?
- What lies ahead in CB weapons development and arms control?

Until March 18 I can be reached in Cambridge either at my office (617-495-2264) or at home (617-876-8676). In ~~new~~ ~~York~~ ~~on~~ Tuesday staying at the Rockefeller University. I will contact you sometime that day.

Sincerely yours,

Matthew Meselson
