Professor Matthew S. Meselson
Biological Lab
Harvard University
16 Divinity Avenue
Cambridge, Massachusetts 02138

Dear Professor Meselson:

Bob Mikulak alerted me to catch your appearance on the Today Show. As Barbara Walters said at the close of the interview, yours was a most lucid presentation of a complex issue.

Permit me to add my congratulations to the many I'm sure you are receiving. It's been my belief for some time that the CW retaliation-in-kind policy in general and binaries in particular cannot survive "the light of day."

Sincerely,

Robert E. Roberts
Principal Social Scientist
