Federal Republic of Germany

Dear Ambassador Roth,

By now you will have received my invitation of 28 October to a Conference on Policies for Chemical Weapons and Chemical Arms Control to be held at the American Academy of Arts and Sciences in Boston on January 21-22, 1977. I hope very much that you will find it possible to attend.

If you want more information regarding the Conference, you may wish to contact my colleague Dr. Albert Carnesale, Associate Director of the Harvard Program for Science and International Affairs. He can be reached in care of Marion Dörnhoff of Die Zeit on Friday, 26 November, when he will be attending a meeting in Hamburg.

For your interest I enclose a list of those who intend to participate in the Conference. Maj. Gen. E. C. Meyer of the Department of the Army, Robert Mikulak of the U.S. Arms Control and Disarmament Agency, and Julian Perry Robinson of the University of Sussex, England have agreed to contribute background papers. It is our intention to have these in the hands of participants early in January.

I look forward to hearing from you soon.

Sincerely yours,

Matthew Meselson
