Professor Matthew Meselson
Chairman of the American academy
of Arts and Sciences
165 Allandale Street
Jamaica Plain Station, Boston
Massachusetts 021 30
USA

Dear Professor Meselson,

You kindly invited me to the Conference on Policies for Chemical Weapons and Chemical Arms Control to be held at the American Academy of Arts and Sciences in Boston. This is a very tempting and challenging offer, indeed, with respect to the topic and the participants.

I am deeply sorry not being able to attend. I seriously tried to change the conflicting date of another meeting in Geneva but learned the very moment that I failed.

I would feel very obliged if you could kindly arrange sending me the circulated papers in spite of my negative response.

Please, give my best regards , particularly to Paul Doty, Stephen Canby and other gentlemen who remember me.

*non miserably,
Yours
W. Graf von Baudissin*
