Dear Matt,

Many thanks for your invitation of 23 November to attend the Conference on Policies for Chemical Weapons and Chemical Arms Control to be held at the American Academy on 21-22 January 1977. I am glad to accept this invitation and enclose the reply form.

WHO does not consider it appropriate to be represented at the meeting, which may give me some difficulty with respect to air travel costs. I am trying to arrange the latter through good prospects of my attending another meeting in New York which starts one week later. I shall not know whether the latter will come through until after the holidays. If, therefore, there remains funds from the sponsors to cover my travel costs in the event I cannot arrange otherwise, I should appreciate your keeping in mind such a possibility since I would like to attend the meeting.

Holiday greetings to all the family.

Yours,

M. M. Kaplan
Director-General

ENCL.
