Arts and Science,  
165 Allandale Street,  
Jamaica Plain Station,  
Boston, Massachusetts,  
02130, U.S.A.

Dear Prof. Meselson,

Please find enclosed some reflections on various issues which came up during the recent CW symposium. I have circulated the piece here; but not as widely as I would have liked because of the time constraint. Nevertheless, it has received some assessment by others here. The opinions expressed are not, of course, official. Use the material as you see fit. I would appreciate it, however, if no direct attribution was made to me.

If there are future session, I would be interested in attending. Let me say in closing that it was very pleasant to meet you and others. The meeting was both fruitful and enjoyable.

Sincerely yours,

Dr. J.S. Finan  
Directorate of Strategic Analysis
