Colonel Charles H. Bay
1 Armitage Drive
Dugway, Utah 84022

Dear Colonel Bay,

It is my fault, not Julian Robinson's, that this reply to your kind letter of 31 May is so long in coming. We would still be very grateful for your comments on our draft article "Chemical Warfare and Chemical Arms Limitation," which we hope to publish in Scientific American. It will be about a month before we will need to prepare the final version.

Sincerely yours,

Matthew Meselson
Professor of Biochemistry

Encl.
