18 October 1979

The Honorable Harold Brown
Secretary of Defense
The Pentagon
Washington, D.C. 20310

Dear Harold,

I am writing to inquire if someone on your staff would be willing to read the enclosed draft article on "Chemical Warfare and Chemical Arms Limitation, ~~spend~~ spend a little time with me to convey comments and talk about the subject generally. I'll understand if everyone is too busy with more pressing matters.

I am also ~~sending~~ sending copy to the Army Director of Nuclear and Chemical Affairs, BG Niles Fulwyler, but I don't know anyone in that office anymore.

With best regards,

Sincerely yours,

Matthew Meselson
Professor of Biochemistry
