Dr. Arthur H. Westing  
School of Natural Science  
Hampshire College  
Amherst, MA 01002

Dear Arthur:

We wish to spend 3-5 days examining forest within the general area of the rectangle bounded by the parallels:

11° 7 min North,  
11° 35 min North  
106° 50 min East,  
107° 0 min East

in the former provinces of Phước Long, Long Khánh and Bình Dương including regions passed through by the Song Bé River and the Suối Mã Đà River.

We would like to have access to all roads within the region including

Provincial Highway	-	Huong-lô hay Khôc	#322
National Highway	-	Liên tỉnh lô	#1A
National Highway	-	Quốc lô	#14

and other roads. From our vehicles we would then wish to walk into the forested and formerly forested regions for distances up to 5-10 kilometers.

Sincerely,

Matthew Meselson
