Mr. Edward J. Becker  
2506 Cliffbourne Place NW  
Washington, D.C. 20009

Dear Mr. Becker,

Thank you for your letters and enclosures of 27 December. I very much look forward to knowing the outcome of your attempt to obtain documents bearing on the possible use by the U.S. of biological weapons in the Korean War. Thank you also for your kind offer to be of help with documentation. At the moment I cannot think of anything to ask for. If you should find yourself in the Boston area, however, please get in touch.

Sincerely yours,

Matthew Meselson  
Professor of Biochemistry
