Dear Mr. Nevin,

Dr. Ralph(?) Muckenfuss is the name of the person Dr. Meselson has been told was probably the Director of the Okaland Navy Biological Laboratories at the time of the serratia experiments. We do not have an address for him but one is supposed to be listed in the FMS (American Microbiology Society or something similar) Directory at a post office box in Florida.

Sincerely yours,

  
Michael A. McGrath  
Secretary to M.S. Meselson
