Ms. Janet Domowitz  
Opinion and Commentary  
Christian Science Monitor  
1 Norway Street  
Boston, MA 02115

Dear Ms. Domowitz,

Here is a copy of the article by me and Julian Robinson which will appear in the April issue of Scientific American. The April issue will come out in about ten days. I thought that you and possibly also someone on the news side at the Monitor might like to have a look at the article. I will be away next week but back on 31 March and will be glad to talk to you about the general subject if you would care to. I also endorse an editorial on the same subject I wrote for the Monitor some time ago.

Sincerely yours,

Matthew Meselson  
Professor of Biochemistry

Encl.
