Dear Matt:

It was good to hear from you after all this while. I showed the Scientific American piece to Outlook and they didn't think it was quite right for them so I did the next best thing. I gave it to our Assistant Managing Editor for National Affairs and suggested the time was ripe to do an article on chemical warfare using material in your piece.

Let me know when you are coming down so I can set up a lunch here with some of our editorial and reporter types. I was delighted to hear your family is doing well. And that you are, too.

Best regards,

Howard
