Dear Matt,

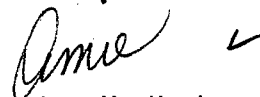

Thank you very much for sending the reprint of your CW article. I had already seen it and read it. I think it is extremely well done. You will, of course, realize that I disagree when it comes to the last page and a half worth of political considerations, but I think you have presented an excellent case for your side of the issue.

Perhaps you know that we almost managed to get on a television debate together. The Utah people filmed me as well as you, and were absolutely startled when I said that I at least would have been happier had they had us both together for a real debate!

If you get to Washington in the near future, please let me know and come by and talk. I am still working on my chemical warfare monograph and am busily updating it, as things are happening very fast.

Again, thanks for keeping in touch.

My best,

Amoretta M. Hoerber
