Dear Matt,

I was so glad to receive -
and to have a bit of enforced
leisure - in which to read your
and Perry Robinson's article in
Scientific American. I don't have
to keep up with the law of war
as I once had to (hostages
have been more in my line these days),
but I still like to hear from
the experts what is going on.

The summer is not the best
time to meet, but Aertens lunch
in the early autumn after I return
to The Hague about 10th October?

With very many thanks
and warm regards,

Yours ever,

Dick Baxter
