Dear Dr. Meselson,

as I failed getting in touch with you during my stay in Cambridge in September last year I would be extremely grateful if you could arrange an appointment on December 11th, 12th or 13th when I shall be in Boston areas again.

I am still interested in the 2,4,5-T-issue and in chemical warfare, which had become a political controversy in the U.S. again.

May I ask you to propose a time for a meeting which is most convenient for you.

Sincerely yours,

  
Egmont R. Koch
