Our reference

Dear Dr. Meselson,

It was a pleasure meeting you recently in Boston together with Bernie Feld, Larry Smith and Jane Sharp. I very much appreciated our discussion on the CW-issues. I promised you to send you some of my recent writings. Please find it attached. The piece on confidence building measures which I gave before the Conference of Disarmament this summer has been presented also for the last Pugwash meeting in Breukelen in Holland in August, this year. If you have any further comments or views I certainly would appreciate learning about them.

I send you my very best regards and wish you a Merry Christmas and a Happy New Year.

Sincerely yours

Johan Lundin

Encl.
