Major General Esmat Ezz
43 Misr Hellwan Rd.
Maadi, Cairo, EGYPT

Dear General Ezz:

I have read the report of the group of experts. It is excellent in view of the difficulties and uncertainties facing the group.

I enclose three (3) items of possible interest to you.

1. Epoxytrichothecenes: Possible Agricultural and Forestry Use
2. Toxic Substances Produced by Fusarium V
3. Testimony: Senate Foreign Relations "Yellow Rain"

If it is not too much of an inconvenience, I would very much appreciate you sending me a copy of the letter regarding Anticholinesterase antidotes which apparently went astray in the post.

With all good wishes, I am

Sincerely,

Matthew Meselson
Professor of Biochemistry
