Dear Matt:

Your performance on ABC Nightline with Ted Koppel last night was beyond brilliant; it was positively virtuoso! I have never seen anyone so completely and effectively knock Richard Perle off balance. It was the unparalleled power of facts and knowledge. It couldn't have happened to a "nicer" opponent. Your arguments are so correct.

Meanwhile, I'm enclosing recent testimony on another part of the problem.

Congratulations and best wishes.

Sincerely,

Sidney D. Drell
