100 Maryland Avenue NE
Washington, DC 20002

Dear Jerry:

To my knowledge the policy initiated by President Nixon and ratified in the form of the Biological Weapons Convention of 1972 by President Ford continues to be the policy of the U.S.. I know of no evidence to the contrary. As you know I disagree with this Administration's C W policies, but I believe that the Regan Administration has adhered to the policy of its immediate predecessor. with regards to biological weapons.

Sincerely,

Matthew Meselson
