Dear Matt,

Thank you for your letter, as a result of which I now know that you are in the country. Why haven't you let me know, and when can we meet? How long are you going to be here? I shall be in London for a couple of days next week, but intend to spend most of August and September here at the Shooting Box.

I had noted the change in the Russian attitude about inspection and the fact that Margaret Thatcher had referred to it at the UN. I'll now enquire whether anyone is following up the matter. I doubt if her interest is as firm as it should be.

Yours ever,

Suz
